Dear Glenda,

On behalf of Living Streets Aotearoa, I would like to thank you for organizing a highly successful conference for us in August 2008.

The third NZ Walking Conference attracted more participants than previous conferences, due largely to your extensive networks in the transport and associated sectors. Once again you showed a willingness to take our ideas on board, resulting in a conference that suited our organisation and our audience.

Your professionalism and attention to detail ensured that the conference ran smoothly from start to finish. You and your team were always on hand to deal with queries, look after participants' needs, and troubleshoot where necessary, leaving the organizing committee to participate fully in conference proceedings.

The conference dinner with its theme of "Taking a Walk down Broadway" was a great success, and, as usual, your team participated with gusto!

Thanks again for doing such a brilliant job.
