Christchurch

Dear Glenda,

This is a letter I should have written a wee while ago (!) but I wanted to write personally to thank you and your team for the fantastic job that you did for the TRAFINZ conference in Wellington.

On a personal level you and the team are always an absolute pleasure to work with. On a professional level everything is so well organised and thought through, and then there's that creative flair! The TRAFINZ conference always has a special memorable character about it, and we could not do that without you.

This year I especially wanted to thank you for doing all those things at conference itself so brilliantly despite the circumstances back home due to the earthquake. I am also about to write to Mark to express my gratitude to him too.

I know that you're already doing some early work on venues and themes for Hamilton 2011. We will again look forward to working together on that.

All the very best too for the Christmas and New Year break.

Very best wishes

Andy
