

TRANSPORTATION
GROUP NEW ZEALAND

30 March 2020

To whom it may concern,

Transport Group New Zealand (a technical group of Engineering NZ) holds an annual conference that attracts 180 -220 transport professionals from across NZ and Australia.

Harding Conferences have been our conference organisers since 2003. They work closely with an organising committee made up of group members from the location where the conference is to be held.

As the convenor of the 2020 Conference, I want to pass on a huge thank you to Glenda and her team for the enormous amount of effort that went in to making Transportation 2020 so successful. The team were professional and supportive through the entire planning process, and really helped me make the vision for the conference come to life. They were an absolute pleasure to work with and their attention to detail ensured that this was the best Transportation Group Conference to date.

I would recommend them to any group requiring conference organisation.

Regards

Gemma Dioni
