

**Transportation Group Conference 2023**

We couldn't recommend Glenda and her team more.

They supported us with the hosting of our annual Engineering NZ Transportation conference in Tauranga in March this year, and with a lead up time of 2 years to this conference as the result of multiple covid delays we were very happy with the delivery and the outcome.

From the very start of the conference planning Glenda and her team were committed, professional and incredibly organised. Despite being based on a different island, they were always contactable and responsive, and their knowledge of conference requirements, risks and considerations was incredible.

Glenda and her team fully immerse themselves in each conference industry area to enable them to support the conveners in all aspects, and they go above and beyond their role to suggest innovative ideas and cultural considerations, along with having an eye for detail and design. This resulted in a conference that was seamlessly delivered in an enthusiastic way, resulting in a successful and very enjoyable experience for all.

I would highly recommend Hardings Conferences.

Thanks,

Sarah Dove & Craig Richards
