	4. Integrating transport infrastructure and land-use		<input checked="" type="checkbox"/>
	5. The transportation profession		<input type="checkbox"/>
Presentation title	Smart Transport: Key to Delivery of the NZ Urban Design Protocol		
Presentation Remit			
<p>Many of the organisations we work for are signatories to the New Zealand Urban Design Protocol. The IPENZ Transportation Group is also a foundation signatory to the Protocol. As we note in our Urban Design Action Plan, "the IPENZ TG supports better integration of land use and transportation planning and policy, including decision-making about the form and siting of new urban developments. We welcome opportunities to work more closely with other stakeholders to improve the quality of urban planning and design."</p> <p>This remit discusses urban design from a transportation perspective and will allow discussion of the role that transportation professionals can play in improving the quality of urban life through good urban design.</p>
