Presentation title	Transit New Zealand's TNZ P/30 Specification for High Performance Roadmarkings		
Presentation Remit			
<p>High Performance roadmarkings are specialised makings to be applied to roads with a traffic volume of > 5,000 v/day and where a traffic safety strategy has identified the need for improved delineation. TNZ P/30 Specification for High Performance Roadmarkings sets out the requirements for high performance roadmarkings. The improved delineation is be achieved through standard roadmarkings with specific retroreflective properties, with or without the addition of audiotactile profiled roadmarkings. This specification will only be used in conjunction with a traffic safety strategy and as such will not be available on the Transit New Zealand website, but may be obtained from joanna.towler@transit.govt.nz</p>
