	➤ Local, Regional and Strategic Traffic Management Planning		<input checked="" type="checkbox"/>
Presentation title	The Urban Domain Infrastructure Development		
Presentation Remit	<p>The presentation will focus on the issues of the sensitivity the communities have on what will or will not enhance the environment they live in particularly the appearances of equipment and the methods used to install them on the streets and the rationalization of the infrastructure. The burdens coupled with the complexities raised by such issues, have highlighted to the Government and local authorities the necessity to manage their urban domain by providing safe, reliable, efficient, innovative and intelligent infrastructure solutions and services.</p> <p>The solutions and services that are integrated and inter-operable as well as readily adaptable to the current and future demands of intelligent transport and public security systems and in some cases with built in features sufficiently flexible to meet the unique and specific aesthetic and environment needs.</p>
